Stuart Little

I read a story called Stuart Little. The author was a. B. White and the book was published by Harper and Row publishers in the year 1945 it was illustrated by Garth Williams.

Stuart Little is a fictional story about a little mouse name skillet and his many inventions. Stuart was only 2 inches tall but that did not stop him. Stuart was the son of Mr. and Mrs. Little they love him very much and a very special care of him. Stuart also had a brother named George and a cat named Snowbell. Snowbell does not like Stuart and tries to make life difficult for him. Stuart's many ventures include getting trapped in the refrigerator, going into pipes and sailing a boat. Stewart's best friend is a bird named Margalo. One day snowbell frightens my Gallo away and Stewart decides to leave his home on his biggest adventure and find his best friend.

The main characters in this book are Mr. and Mrs. Little, Stuart's parents snowbell, the little cat, Margalo the bird, Stuart's best friend and his brother George. And of course last but not least the main character is Stuart.

I would recommend this book to other third grade because I enjoyed reading about Stuart and his many adventures!

This is a superb book report!
